SUB: Filing of Indexations for the Quarter Based on Actual Macros and Duties

We are writing to inform you about the methodology SSRL will employ for filing indexations for each quarter, based on actual macroeconomic indicators and the actual duties and taxes paid during the respective quarter, This approach is in line with our preliminary discussions with TCEB to ensure accuracy and transparency.

Macroeconomic Indicators and Assumptions

For each quarter, the following macroeconomic indicators and assumptions will be used for the indexation:

1. **1-month KIBOR:**
 - Average of daily rates of 1-month offer KIBOR published by SBP during the quarter.
2. **6-month LIBOR and PKR/USD Exchange Rate:**
 - (a) Average of daily rates for 6-month LIBOR published by NBP during the quarter.
 - (b) Average of daily selling PKR/USD exchange rates published by NBP during the quarter.
3. **Diesel Prices:**
 - Average of retail prices of HSD at PSO Pumps in Islamkot, as published by OGRA during the quarter.
4. **RFO Prices:**
 - Average of Delivered RFO Price notified by PARCO Price during the quarter
5. **Local CPI:**
 - Average of monthly rates published by the Pakistan Bureau of Statistics during the quarter.
6. **US CPI:**
 - Average of monthly rates published by the US Bureau of Labor Statistics during the quarter.
7. **RMB/USD Exchange Rate:**
 - Average of daily selling and buying rates published by the Bank of China.
8. **PKR/USD Exchange Rate:**
 - Average of daily selling and buying rates published by the State Bank of Pakistan.
9. **Duties and Taxes:**
 - Actual import duties and taxes paid during the quarter.
10. **The Weighted Average Heat Value:**
 - The weighted average heat value of the coal sold during the Quarter.

We believe this approach will lead to more accurate and fairer indexation, should you have any questions or require further clarification, please do not hesitate to contact us.
